

Dear

- **Do you want to deliver consistent messages and training to people who can no longer afford the time and cost to travel to a training centre for a day?**
- **Are you looking for smarter, leaner ways of communicating with your employees?**

If the answer to either of the above **is Yes**, then take a look at what Tralee based food giant Kerry Group plc have to say about us.....

"We engaged Olas^{IT} as our training partners to assist us in the roll out of Rapid eLearning across the Kerry Group as the primary method of delivering training on existing and new business processes to our workforce. Following a very successful pilot programme, Olas^{IT} then assisted us to 'train our own internal trainers', transferring the technical and creative skills to enable us to rapidly create and deploy further training programmes. With ongoing support from Olas^{IT}'s Rapid eLearning specialists the roll-out of Rapid eLearning yielded a return on investment within 6 months and is now the key learning tool used in Kerry Group to disseminate key process training to management and staff globally in a cost effective, efficient and productive manner"

Declan O'Dwyer, Training Manager, Kerry Group Plc.

We would like to invite you to a Rapid eLearning webcast event that will take place on Thursday, May 21st, 2009 from 10.00-10.45am. Agenda for the web event:

1. Introduction
2. What is Rapid eLearning?
3. How our clients use it
4. Demonstration of Rapid eLearning
5. How Olas^{IT} can offer a blended training solution to your company
6. Q&A
