

Olas^{IT} bring New SAP End-User Initiatives to the market

- **Are you trying to maintain your core end-user SAP knowledge base while faced with all the organisational challenges that currently exist**
- **Are you looking for flexible and cost effective training solutions to help keep your SAP end-users driving your business forward**

If the answer to either of the above **is Yes**, then take a look at some of the SAP end-user training initiatives we are currently designing and adapting to help our clients maintain high levels of user performance on SAP

SAP End-User Training Initiatives include:

1. **Implement** or reinforce existing **Super-user structures** to support businesses during change
2. **Re-build internal training capability** using our SAP Train the Trainer services
3. **Coaching key support staff** on specific SAP topics (e.g. SAP Query, LSMW, Report Painter)
4. Providing **interim SAP training resources** to plug any short-term gaps in training
5. Empower our clients' internal SAP trainers with the skills required to deliver SAP training using **non-traditional training delivery methods:**
 - Virtual or web based training
 - Self service simulations
