

News Release:

Olas Wins €400K Software & Training Deals

- Appointed sole Irish partner for SAP Business Objects portfolio

Dublin, Wednesday, 21st April, 2010:

Stillorgan based software training specialist, Olas has announced that it has won a number of deals over the last six months worth approximately €400,000. The work is for SAP training and software services and includes customers such as the International Criminal Courts in The Hague, CMC Coal, and MSI Signs as well as a major Irish food company.

Olas has also announced that SAP has awarded it the sole Education Partner for its SAP Business Objects portfolio in Ireland.

“Olas has supported the SAP customer base with quality SAP training services for a decade,” commented Fiona Walsh, Business Development Manager at SAP Business Objects Ireland. “We look forward to their taking part in the growth of our Business Objects business.”

“Today’s international organisation needs to achieve more business value from fewer, better trained employees,” added *Ruairi Boland, managing director, Olas*. “Some of our customers are with us for 28 years because they recognise the value of working with a training specialist and not taking chances on employee productivity.”

Founded in Dublin in 1981, Olas provides industry and government with software training on SAP, Microsoft and Adobe. Olas, which works with 17 of Ireland’s top 30 companies, also develops e-learning and bespoke software applications that improve productivity and reduce costs.

About Olas

Founded in Dublin in 1981 **Olas** is Ireland's only software productivity specialist, providing industry and government with software training on SAP, Microsoft and Adobe. Olas also develops e-learning and bespoke software applications that improve productivity and reduce costs. Olas works with 17 of Ireland's top 30 companies.

In relation to project team training, Olas is Ireland's sole SAP Education Partner for SAP and SAP Business Objects, providing scheduled SAP and Business Objects training at its Stillorgan training centre, and on-site. Olas services SAP trainees from Ireland and abroad with a SAP's catalogue of specialised technical courses.

SAP, the largest software enterprise in Europe, acquired software giant Business Objects in 2007. Olas will now add the portfolio of SAP Business Objects courses (which range from the popular Crystal Reports to the complex Business Objects enterprise platform) to its scheduled and customer specific courses. Olas will be the only provider in Ireland to offer SAP Business Objects certified trainers and materials, so Irish professionals won't need to go abroad to attain the internationally recognised SAP training certification.
